초대 연설자

Ryan Goldstein, Esq. / Quinn Emanuel 변호사

Ryan Goldstein is co-head of Quinn Emanuel's Tokyo Office, and spends at least six months a year in Japan. Ryan's practice is devoted to complex business litigation, including patent and intellectual property litigation, antitrust, class actions, product liability, criminal investigations, defamation, and contract/fraud disputes. With respect to patent work, he has litigated and advised clients in a wide range of technologies, including internet provider systems, printers and print heads, complex cellular communications technology, fiber optics, and electric razors, amongst others. He has also litigated extensively in the fields of software and hardware implementation and aerospace contracts, and mechanical engineering. In addition to having won two trials within the last year, Ryan also frequently appears in the ICC in international arbitrations.

Moreover, Mr. Goldstein has unique expertise in advising Japanese clients and litigating on their behalf. His fluency has allowed him to work closely with Japanese clients on all phases of litigation, from document collection and production to the preparation and defending of key witnesses (including numerous patent inventors), all in Japanese.

He also served as a visiting scholar at Waseda University Law School in 2005, and has been invited to speak as a visiting lecturer at Waseda Law School, Keio Law School, Keio Law Department, Seikei Law School, and Omiya Law School, amongst others. He generally lectures, in Japanese, on a variety of topics related to complex litigation, including patent and intellectual property law issues, the attorney-client privilege, trial strategy, and e-discovery.

Ryan was recently recognized by The Daily Journal as one of the top 20 lawyers in California under 40 years old.

Quinn Emanuel Urquhart & Sullivan L.L.P

Quinn Emanuel is the premier business litigation firm in the United States. With over 400 lawyers in Los Angeles, New York, San Francisco, Silicon Valley, Chicago, Tokyo, London, and Mannheim, we are the largest firm in the United States that only does business litigation. More to the point, we are the premier business trial firm; year in and year out -- no firm tries as many business cases to juries as we do. And, we do it successfully: we are the only firm in the United States that has won four nine-figure jury verdicts in the last seven years. We have also obtained six nine-figure and three ten-figure settlements. We achieved these results for plaintiffs even though most of our practice is on the defense side.

Our reputation as trial lawyers is well known. When we appear in a case, our opponents know that they are facing an adversary that has the willingness and capability to see the matter through to verdict and to win. This is a rare capability in the present business litigation environment, in which jury trials -- and experienced trial lawyers -- are rare.

The General Counsel of a well known internet company recently told one of our partners that he wanted to hire us because we "were responsible for making the business of litigation more competitive." As he said, we are the "hungry dogs". This sentiment echoes The American Lawyer's June 2006 feature article on our firm, "The Mighty Quinn", in which we were described us as a "litigation tour de force."

**The London office of Quinn Emanuel Urquhart & Sullivan LLP operates as a limited liability partnership registered in England and Wales (with registered number OC337278) and is regulated by the Solicitors Regulation authority. A list of members and their professional qualifications is open to inspection at our registered office, Ground Floor, 90 Long Acre, London WC2E 9RZ . We operate in association with the US limited liability partnership of Quinn Emanuel Urquhart & Sullivan LLP, which is organised under the laws of the State of California, USA."
